

Mentor Program

1997-1998 Mentors

The School of Law expresses its sincerest appreciation to the following alumni who participated in the student mentoring program last spring. Each individual worked with first-year second-semester day students in guiding their expectations of law at work in the real world. This invaluable training and insight not only prepares students for their second year of law school, but serves as a liaison to Maryland's legal community. The mentoring program began in 1995 and runs every year.
